

Name: _____

Section: _____

Find someone who...

can list and explain the two factors that impact the force of gravity.

1.

2.

can explain how inertia is connected to Newton's 1st Law.

can explain free body diagrams and how they help you determine the net force on an object.

can explain how force, mass, and acceleration are related.

can list and describe Newton's Laws.

1.

2.

3.

can describe the connection between friction and air resistance.

Students must initial the answer they give you after you write it down.
