

How to Tie a Bow

Your task is to write detailed instructions in paragraph form on how to tie a bow using the string provided. Pay attention to details because your grade on this task will be determined by how close someone else comes to tying a bow using YOUR directions!

You have received a piece of string. Use it to tie a bow. Contemplate each step you take. Write the instructions down and have a friend try it using your directions.

Make modifications as necessary. You have the rest of the class period to finish. Tomorrow we will test your offerings!

100- Bow tied completely with two loops

70- One loop tied

50- No loops. Thanks for playing!
